

WealthCare Saver

A New Home for Your HSA Dollars

WealthCare Saver ensures a seamless transition for your health savings account

What is WealthCare Saver?

You've come to know BenefitsAssist as the administrator of your HSA. What you may not know is that your HSA custodian – the company that safeguards your funds – has been WealthCare Saver all along. As you transition away from your employer, WealthCare will perform as your administrator. So you're still in good hands!

What happens next?

If there is an available balance in your HSA, you will receive a new WealthCare HSA debit card in the mail to pay for qualified medical expenses such as prescriptions, over-the-counter medicines, and other eligible services. If you do not have an available balance in your HSA and you would like to request a card, please call the WealthCare Concierge team at **866.287.2520**.

How do I access my account?

Your new HSA card will include instructions for how to register your account online. After registering, you can access and manage your HSA via the user portal found at [wealthcare.com](https://www.wealthcare.com), or by downloading the WealthCare mobile app. We encourage you to log in and review/update your contact info, beneficiaries, interest and investing options, and statement delivery preferences. A complete list of fees, terms and conditions is available at www.wealthcaresaver.com/disclosures/wealthcare.

One of the best perks of an HSA is that your account remains your own, no matter where you go. With WealthCare Saver, your health savings will always have a good home.
